

# CLEARY UNIVERSITY

MASTER OF BUSINESS ADMINISTRATION

## HEALTH CARE LEADERSHIP

Advance your degree without putting your career or life on hold.

The Health Care Leadership concentration prepares you to lead in today's complex and evolving healthcare industry. Building on core MBA competencies, you'll explore privacy, data security, HIPAA, ethics, quality management, informatics, and emerging healthcare technologies. You'll develop the business and management skills needed to navigate healthcare policy, information security, and organizational challenges. Graduates can pursue leadership opportunities across hospitals, clinics, physician practices, insurance organizations, rehabilitation centers, skilled nursing facilities, research institutions, and home health organizations. Career paths span clinical and non-clinical areas, including health information technology, finance, marketing, insurance, biotechnology, post-acute care, and healthcare administration.
