

CLEARY UNIVERSITY

MASTER OF BUSINESS ADMINISTRATION

PROJECT MANAGEMENT

Advance your degree without putting your career or life on hold.

The Project Management concentration prepares you to successfully lead projects from planning through completion. Building on core business knowledge, you'll develop essential skills in project planning, performance evaluation, budgeting, communication, team building, and leadership. You'll learn how to manage people, resources, timelines, and priorities while keeping projects efficient, productive, and focused on results. Project management skills are valued across virtually every industry, creating opportunities in manufacturing, marketing, communications, construction, education, healthcare, finance, pharmaceuticals, and more. Graduates are prepared to take on leadership roles that require strategic thinking, collaboration, problem-solving, and the ability to move projects successfully from idea to execution.
