

CLEARY UNIVERSITY

MASTER OF SCIENCE

CULTURE, CHANGE & LEADERSHIP

Advance your degree without putting your career or life on hold.

The Master of Science in Culture, Change, and Leadership prepares you to lead organizations through transformation in a rapidly evolving workplace. You'll learn to develop, implement, and evaluate cultural change initiatives while exploring the role of leadership and group dynamics in building stronger organizations. Through critical thinking, problem-solving, and applied research, you'll develop the skills to influence culture and guide people through meaningful change. Graduates are prepared for opportunities across healthcare, education, technology, manufacturing, sales, and other industries. Career paths include staff development, training and education, organizational management, human resource management, quality management, and change management.
