

CLEARY UNIVERSITY

MASTER OF SCIENCE

HUMAN RESOURCE MANAGEMENT

Advance your degree without putting
your career or life on hold.

The Master of Science in Human Resource Management prepares you to become a strategic leader in managing and developing talent in today's global workplace. You'll explore performance management, organizational behavior, labor relations, business strategy, ethics, and data-driven decision-making while developing essential problem-solving and leadership skills. The program aligns with SHRM educational standards and helps prepare students for the SHRM Certified Professional (SHRM-CP) exam. Graduates gain a contemporary, global perspective on human resource management and organizational success. Career opportunities include human resource director, labor relations director, organizational development director, staffing manager, payroll manager, and benefits, training, and development manager.
