

CLEARY UNIVERSITY

MASTER OF SCIENCE

MANAGEMENT

Advance your degree without putting your career or life on hold.

The Master of Science in Management prepares you to lead confidently in today's rapidly changing business environment. You'll develop and apply a broad range of management skills while gaining knowledge across key areas including human resources, finance, marketing, and operations. The program provides a versatile business foundation designed to strengthen your leadership, decision-making, problem-solving, and organizational effectiveness. With skills that translate across industries and roles, graduates are prepared to pursue management and leadership opportunities in manufacturing, healthcare, government, sports, service organizations, and other business sectors. This flexible degree equips you to adapt, grow, and make an impact throughout your career.
